

UK ECONOMIC INDICATORS

Key indicators for HR & business decision-making

Latest available UK data — fact checked as at 8 September 2026.

Latest published period varies by indicator.

Why Kube publishes these indicators

Leadership decisions are rarely made in isolation from the wider economy. Each month, Kube brings together a concise set of key economic, labour-market and business indicators — helping leaders understand the signals that may affect people, cost, demand, investment and organisational decisions.

Less data. More useful intelligence.
